Gordon Gould, Philip Libby.

FAIRFIELD SCHOOL DISTRICT TRUSTEES:

Dr. Loring Pratt, Chairman; Marcel Bolduc, Treas.; Ray Tobey, Donald Webb, Leon Lord.

Director Civilian Defense Mrs. Bernys Ellis

Assistant Director Civilian Defense Philip Bowker

Town Manager's Report

This is the annual report of the various bookkeeping transactions of the several departments of your town.

Town office meetings were held monthly throughout the year for the purpose of discussing municipal operations. It is my belief that these discussions have brought about a better understanding of municipal problems.

The 1959 tax year closed January 31, 1960 with taxes of nearly 94% collected, bills paid, and a substantial cash balance.

Auditor's form the state department of audit have examined the town operating accounts, and a report of their work has been received at the town office. This audit report is available to anyone having an interest in it.

A new Michigan front end loader with back-hoe attachment was purchased for the public works department. The purchase of this new equipment will strengthen sewer and highway maintenance. A continued effort is being maintained to keep the public works equipment in good repair.

A few of the town roads have been improved by ditching and installing culverts, and I hope more of this work can be done next year. Quite a bit of money was spent on the Wentworth Orchard road and on the Covell road so-called.

Welfare continues to be a very important item in town government. The number of state relief and relief of those families who have settlement in other towns has increased in recent months. Several new town cases have developed during the past year. The inability to find employment is part

of the reason why some families have appealed to the town for help. It has been possible to finance this past year's welfare program and keep within the appropriation provided at the last town meeting. The cost of welfare has been reduced by contributions of food, clothing, and bedding. I appreciate the help from those who have been willing to share in this welfare responsibility.

The cost of town business continues to increase, however, efforts have been made to keep operating expenses as near appropriations as possible. It has been difficult to meet governmental expenses as costs on practically all municipal supplies have continued to rise.

I am grateful to all town officers, town employees, and the people of Fairfield for their continued interest and cooperation.

Respectfully submitted,

ROBERT A. HANSON,
Town Manager

1959 Valuation, Assessment and Collection

Year Ended January 31, 1960

	Real Estate	Personal Estate	Total
VALUATION:			
Resident	$1,907,395.00	$ 179,310.00	$2,086,705.00

PROTECTION

Police Chief's Report

Traffic Accidents 1959
Investigated by Fairfield Police

The Police Department investigated a total of 194 Motor Vehicle Accidents during the year 1959. They are classified as follows:

Collision of Two or More Vehicles	123
One Vehicle Accidents	36
Collision of Vehicles and Animals	20
Pedestrian Accidents	4
Motor Vehicle and Bicycle	2
Micellaneous Accidents	9

There were 47 persons injured as a result of these accidents. There were no persons killed as a result of these accidents in Urban Fairfield. Thi sis a great improvement over past years and should entitle the Town to a Safety Award as the Police Department is enrolled in the National Pedestrian Safety Contest. The Police Department is in favor of the formation of a Local Safety Committee and is assisting in an effort that there is now being made toward its formation. It is believed that such a committee would be of invaluable aid in the reduction of accidents.

The Police Department prepared reports on the above accidents and also sent reports on all major accidents to the Maine State Police to aid in the State wide compilation of accident statistics.

Enforcement of Traffic Laws

The Police Department prosecuted the following cases for violations of the Traffic Laws:

Passing Stop Sign or Red Light	14
Operating Without a License	11
Speeding	7
Drunken Driving	7
Operating So As To Endanger	4
Operating Unregistered Vehicle	3
Leaving Scene of Accident	1
Failure To Report Accident	2
Failure To Yield Right of Way	1
Operating Without Lights	1
Tickets Issued for Violation of Parking Meter Ordinance	967

The Investigation and Prevention of Crime

The Police Department investigated 61 cases involving Larcenies, Attempting Larcenies and Breaking, Entering and Larceny.

The above offenses included the following:

Thefts of parts and accessories from motor vehicles	22
Offenses cleared	6
Auto theft (Includes taking motor vehicle without owner's consent)	10
Offenses cleared	8
All vehicles were recovered	
Larcenies from stores (Shoplifting)	9
Offenses cleared	6
Breaking, Entering and Larceny	7
Offenses cleared	2
Attempted Breaking, Entering and Larceny	2
Thefts of a miscellaneous nature	12
Offenses cleared	4

In addition to the above, the Police Department made 97 special investigations. The greater part of these investigations were of crimes or of situations that could have led to crime.

These investigations included the following:

Offenses against the public morality or chasity	9
Offenses cleared	6

The Police Department prosecuted the following cases in the court (the majority of these cases involved lengthy investigation):

Crime Against Nature	1
Engaging in Lewdness	1
Lascivious Behavior	2
Indecent Exposure	1
Contributing to Delinquency of a Minor	1
Idle and Disorderly Person	2
Auto Theft	1
Taking Motor Vehicle Without Owner's Consent	3
Larceny	3
Breaking, Entering and Larceny	2
Liquor Law Violations	2
Intoxication	26
Assault and Battery	9
Failure to Provide for Family	5
Operating Junk Yard without a License	1
Violation of Probation or Parole	3
Arrested for Other Departments	4

Juvenile Offenses

The Police Department investigated 69 complaints that involved Juvenile Offenders (under 17 years of age). About a half of these complaints were of a minor nature. The more serious complaints were as follows:

Larceny (Shoplifting)	7
Larceny (under $100.00)	8
Grand Larceny (over $100.00)	1
Taking Motor Vehicle Without Owner's Consent	7
Morals Offenses	2
Malicious Mischief (Property Damage)	12

Note: Two juveniles were responsible for 7 of the above offenses.

The Police Department had 16 juveniles brought before the Juvenile Court. Juvenile Court is held at Skowhegan or Pittsfield as Fairfield has no Juvenile Court. The court issued 9 warrants in these cases. The others were lectured by the court.

Other Police Department Functions and Activities are listed as follows:

Investigation of Disturbances

The Police Department investigated 50 cases involving disturbances of the peace in public and in the homes.

These cases included the following:

Family Fights or Disputes	24
Public Disturbances	14
Prowlers	4
Miscellaneous	8

Special Details

The Police Department handled 76 special details of a various nature. These included the following:

Emergency Trips to Hospital	8
Lost Children	8
Assisting Other Departments	12

Messages Delivered

The Police Department delivered 36 messages that were mainly of an urgent nature. Almost all of these messages were from out of town for local residents.

Protection of Business Establishments

The Police Department found 28 business establishments with unlocked doors or with merchandise left outside after closing hours.

Special Police Women's Patrol For School Crossings

At the start of the school year the Police Department

organized a special police women's patrol at 5 school crossings. Heavy construction traffic created an extra hazzard to an already dangerous condition at the school areas. Five women volunteered for this duty. They serve without pay. They are to be commended for this service. They have proven very faithful and have not quit the job. They have been on their posts since school started in spite of cold or rainy weather. Although they have not asked for remuneration, a lot of people think that they should have some and there is an article in the town warrant to this effect. It deserves your consideration.

Police Athletic League

The Fairfield Police Athletic League beginning its fourth year of operation is rapidly becoming a dominant factor in the life of Fairfield youth. With last summer's recreation activities proving successful the P.A.L. is the only activity group providing a twelve months program for the town's youth.

The P.A.L. has a participating membership of over 200 youths, the program has aroused widespread attention from prospective P.A.L. organizations in other Maine communities, various states, and has been nationally recognized by the President's National Youth Congress in Washington.

Among the 200 youths participating only three have been involved in juvenile offenses during the past year, which indicates that the program is a very effective weapon against juvenile delinquency.

The members of the Board of Directors and the Athletic Director would like to extend their appreciation to the Fairfield School Board, School Administrators, and teachers.

During the past year the P.A.L. has received splendid cooperation and support from the American Legion, V.F.W., their auxiliaries, Kiwanis, Fire Dept. and auxiliaries and the many other interested citizens.

The Fairfield Police Athletic League is a Community Chest sponsored activity and their members thank the mer-

chants and citizens for their generous contributions to the Community Chest Drive.

Respectfully submitted,

FREDERICK H. GOULD,
Chief of Police

Fire Chief's Report

To the Citizens of the Town of Fairfield I submit the following Report:

In the past year the Fire Department responded to 131 alarms. 61 in Fairfield Village, 44 in Rural Fairfield and 26 in Benton. 4 were false alarms.

The number of men responding to these alarms were 1,594. 1,282 in Fairfield and 312 in Benton.

The total hose laid was 7,300 feet of 2½ in. hose and 12,000 feet of 1½ hose.

The total value of the buildings, cars and trucks we were called upon to protect was $289,400.00; $231,400.00 in Fairfield and $58,000.00 in Benton.

Total value of contents of buildings was $190,300.00; $165,700.00 in Fairfield and $24,600.00 in Benton. The total loss was $50,125.00 in Fairfield.

In the past year we purchased 500 ft. of 1½ in hose, 500 ft. of 2½ in. hose, nozzles, a red beacon light, and other small equipment and made necessary repairs to the apparatus, all of which at this time are in first class condition.

The GMC Tank Truck that was added to our apparatus has proven to be a very valuable piece of equipment in rural fire fighting and has also been very useful in the village.

In conclusion I wish to thank the Town Manager, the members of the Council, members of the Central Maine Fire Association, members of the Women's Auxiliary, also mem-

bers of the Fire Department and any of the citizens who have contributed to the success of the Fire Department.

Respectfully submitted,

ALBERT F. LEMELIN, *Chief*

HEALTH AND SANITATION

Report of Public Health Nurse

FOR YEAR ENDING DEC. 31, 1959

At the year's end it is again appropriate to give you an account of public health nursing services in your community for the year 1959.

The primary purpose of public health nursing is to provide nursing service to people at home, at school, at work, in clinics and health centers, so that individuals, families and the community as a whole will be helped to achieve and and maintain optimum health. Public health nursing is one of the basic health services that contribute to a healthy and happy way of life.

The very important work of the Division of Public Health Nursing of the Maine Department of Health and Welfare is to provide public health nursing service to people in the rural areas and small towns of our State. These services include:

Health teaching of individuals and families in their homes for the prevention of illness, promotion of health and correction of defects.

Teaching nursing care of the sick and rehabilitation of the handicapped in their own homes, with medical direction from the patient's physician.

Prevention and control of communicable diseases through immunization programs, detection and follow-up of tuberculosis and venereal diseases, and health education.

Maternal and child care, including school health services and child health conferences.

Follow-up home visiting to individuals and families under care of the various State clinics and services — crippled children, pediatric, mental retardation, cleft palate, adolescent, cardiac, tuberculosis — to help patients and families carry out the doctor's instructions for treatment.

Working closely with physicians, hospitals, and other health and social agencies in behalf of patients and families.

Working closely with the townspeople, individually and in groups, so that the people themselves will take responsibility for developing health programs to meet their unique local health needs.

Health is a priceless possession, defined by the World Health Organization as "a state of complete physical, mental, and social well-being and not merely the absence of disease or disability". It is wisely said that public health is people, who are so concerned with good health for themselves, their neighbors, and their community that they work for this priceless possession. This wise saying guides us well, for nowhere in our State do we have the number of public health nurses we need to give all the services we would like to give. It follows, then, that a successful public health nursing program does, and indeed should, depend largely upon the interest, support, and volunteer work of the local people, individually and through organized group effort. The public health nurse gives directly those services that require her special professional nursing skills and gives leadership and counsel to the townspeople in developing, cooperatively, the health programs most suitable for their own community.

Your public health nurse submits the following summary

of public health nursing services in your community for the year1959:

Home visits for:	
Maternity	36
Infant	56
Preschool	158
School	320
Adult	192
Crippled Children	31
Control of Communicable Disease	53
Interviews re Health Program	266
Interviews with teachers and pupils	42
School Physical Examinations (Grades 4 and 8)	89
Child Health Conferences	12
Average attendance	44
Immunizations completed	
Diptheria, whooping cough, tetanus	65
Small pox vaccination	46
Polio	58

Respectfully submitted,

ESTHER WILLEY,
Public Health Nurse

Health Officer's Report

To the Citizens of the Town of Fairfield:

I herewith submit the report of the Town's Health Officer. Contagious diseases reported to the State are as follows:

German Measles	4
Measles	46
Chickenpox	1
Scarlet Fever	1

A program for immunization of the school children has been started, and will be completed this month. The response has been excellent.

Much credit is due your Public Health Nurse and her assistants for setting up and working on these clinics . I wish to thank all who have given their time working on these worthy causes.

Many readmissions to school have been issued.

The plumbing inspector and alternate have been appointed for the ensuing year.

Several cases of public nuisances have been received, investigated and in most cases satisfactorily adjusted.

I wish to thank all who in any way have cooperated to make this report possible. It has been a pleasure working for the betterment of the health of our community.

Let us all continue to work to safeguard and improve the health of our citizens.

Respectfully submitted,

R. H. Bridges, D.O.
Health Officer

SCHOOL COMMITTEE

Ralph H. Field, term expires March 1960
Ruel J. Blackwell, term expires March 1961
Harold Joseph, term expires March 1962

ATTENDANCE OFFICER

Claude McLellan, Sr.

SCHOOL CALENDAR

Fall term began September 9, 1959, closed December 18, 1959.

Winter term, first half, began January 4, 1960, closed February 19, 1960.

Winter term, second half, began February 29, 1960, closes April 15, 1960.

Spring term begins April 25, 1960, closes June 17, 1960.

Regular meetings of the school committee are held twice each month, usually on the Wednesdays before the 10th and 25th, except during vacations. Special meetings are held whenever necessary and are called by the Chairman of the School Committee.

The Superintendent's office at Lawrence High School is open every day that school is in session from 8 A.M. until 4 P.M. Interviews may be had by appointment on any day that school is in session.

REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE

To the Citizens of Fairfield:

We present the following report of the Superintending School Committee:

SUMMARY OF OPERATIONS

Appropriations and Expenditures for 1959 - 60 and Estimated Costs for 1960 - 61

During the past year the Superintending School Committee has received, with regret, the resignation of Miss Alice Ladd, who has served the Town of Fairfield school system for forty-four years.

Effective July 1, 1959, Mr. Ralph Smith became superintendent of schools.

In the fall of 1960 the new high school will be ready for occupancy, thereby pupils in the sixth, seventh and eighth grades will move to the present high school building, thus relieving the crowded situation in both the elementary and secondary scchools.

The increase in the budget for the school year of 1960-61 is accounted for as follows:

> Additional elementray and secondary teachers, such as, Remedial Reading, Guidance, and classroom instructors, increase in present teachers' salary schedule, and initial cost of operating the new high school, which will be offset by an increase in tuition the following year.

Some thirty-five years ago Mrs. Abbie J. Ladd, chairman of the Fairfield School Committee, said in a speech, the following, which I believe is very appropriate today and will be appropriate thirty-five years from now:

"Much credit is due the taxpayers of the town for the manner in which the schools of every grade are supported, when sometimes it seems almost impossible that requirements be met. Toil and self-denial is required of all in maintaining the public schools, thus helping to educate all the children of all the people.

All education, worth the name, has a spiritual sense and a spiritual aim. It lives by vision and works by insight and outsight. One generation always rests on the shoulders of the preceding one. Therefore, let us renew our courage and help to carry on the work already begun. The future is before us to choose the higher things of the mind, of the soul. Although it may mean sacrifice and even hardship on the part of the many, we feel assured that the citizens of the Town of Fairfield will cheerfully do their part in the future as they have so willingly done in the past."

Respectfully submitted,

RALPH H. FIELD, *Chairman,*
Fairfield School Committee

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of Fairfield:

I submit herewith the school report for 1959 - 60, with a statement of resources and expenditures for the year.

The important event of 1959 in the Fairfield school system has of course been the construction of the new high school. As this building is completed and occupied, the changes that are to follow will affect the school lives of children of all ages, beginning with the first grade.

As the high school classes move to the new school, the pupils of the sixth, seventh, and eighth grades will move to the present high school, and the lower grades will move from North Grammar to Central Elementary School. Many of the benefits will be immediately evident, while others will be realized as the School Committee develops its revised and improved program of instruction.

North Grammar School will be closed after more than three generations of useful service to the young people of Fairfield, and the hearts of hundreds of its "alumni" will be stirred by fond memories. At Central Elementary School, however, classes will be free of the confusion of the traffic and the trains, and the hazards to safety which existed despite the watchfulness of teachers and the unselfish service of the Mothers' Patrol. Safe and ample playground areas can be developed for these younger pupils at Central Elementary School.

At the present high school the sixth, seventh and eighth grades will have classrooms enough to relieve the severe crowding which has existed this year. Important curriculum improvement will also be possible.

For the high school pupils and faculty alike, moving to the new school will certainly be a dream come true. The benefits will affect just about every department of the school, and will be evident in both the quantity and quality

of the entire program, from classroom instruction, to sports, and even the noon lunches.

At all age levels improvement in curriculum and instruction will now be possible. The School Committee has plans ready to bring about this improvement immediately.

Lawrence High School

By law, beginning in 1960, high schools of Maine will be evaluated and rated, and classified in two ways.

1. All schools must qualify for basic approval, by meeting relatively simple standards for school program and school buildings, as required by law.

2. There will be a second set of much more rigid standards by which some schools may receive not only basic approval, but accreditation. Accredited schools will be those which have been carefully evaluated, found to meet a long list of requirements concerning buildings, program and teaching staff, and judged to be doing a praiseworthy job of education. Graduates of accreditated high schools are sure to be given careful consideration as candidates for college admission, or as candidates for employment.

Naturally Lawrence High School will want to apply for accreditation. No one will want Lawrence to be found lacking in meeting state standards for evaluating schools that do a good job of education. The School Committee is including accreditation requirements in its planning for 1960.

The School Committee recommends an additional classroom teaching position to permit arrangement of smaller classes, especially in English, for more effective instruction, and to meet accreditation standards. This position may also be used to expand course offering in mathematics and science.

The School Committee recommends a full-time position in Guidance Counseling. This position is essential, if the high school is to be accredited. The importance of guidance counseling has been stressed by such authorities as Dr. Conant, whose recent book is so well known; and Congress has recognized its importance by including guidance counseling in the programs given subsidy under the National

Defense Education Act. State accreditation standards demand it.

The School Committee plans to make the Industrial Arts program an approved course for tuition purposes by organizing the new shop into four areas to meet state standards. The four areas are electricity, automotive work, metal work, and woodworking. The new areas should add greatly to the interest and value this course will have for all boys.

The School Committee plans to take all possible advantage of the National Defense Education Act programs for subsidy to schools to aid their guidance, Science, Foreign Language and Mathematics teaching. With the cooperation of the School District Trustees, the new science laboratories have been laid out to qualify for full approval.

Junior High School

The School Committee recommends a program for immediate improvement of the curriculum for the sixth, seventh and eighth grades. One classroom teaching position is required this year to relieve crowding, and provide additional teaching time for Reading and Language.

Two additional teaching positions are recommended to provide instruction in Industrial Arts for boys, and Home Economics for girls in the seventh and eighth grades, and Physical Education for boys and girls in the sixth grade.

Elementary Schools

Two unoccupied rooms will be available at Central Elementary School after the sixth, seventh and eighth grades move out, since pupils from North Grammar will not need more than four classrooms.

These rooms can be used for expansion, if class size increases, for special purposes, such as Remedial Teaching, or indeed for including junior primary education for five year old children if that should be desired in the future.

Summer High School

There has been some study in the Waterville area of the possibility of operation of a summer high school session for

the towns of Fairfield, Oakland and Winslow, and the city of Waterville. We are waiting for further information before any decision is made regarding participation of the Fairfield school system in such a project. The summer session would be held in one of the other communities the first year.

If a session is operated, there would be opportunity for pupils to make up work failed, to take courses they might previously have omitted, or to take courses for which they might not have time in the regular school year. There would probably be a nominal fee to be paid by the pupil.

School Plant Repairs

Lawrence High School

Considerable repair work was done on the heating system, including replacement of the large smoke flues in the boiler room, new tuyeres for the stokers and new fire brick, and miscellaneous repairs to radiators, valves, and the condensate return pump. The gymnasium floor and hall floors were refinished and four classroom floors were sealed. Cement floors were painted, some seats were repaired and varnished. Considerable miscellaneous repair work was done to plumbing and electrical lines. The welder in the Vocational Agriculture shop was provided with proper permanent wiring, suitably protected.

South Grammar School

The entire exterior was repainted, and eleven window sash were replaced. The porch roofs were repaired. The stoker motor was replaced, and wiring repaired. Cracked window glass was replaced. Seats were sanded and varnished.

North Grammar School

Seats were sanded and varnished, electrical wiring was repaired, and miscellaneous plumbing repairs were made.

Central Elementary School

The exterior of the building was given a coat of Japan oil. The automatic temperature control system was im-

proved. All seats were sanded and varnished. The flag pole was painted. Glides on pupils' seating units were replaced.

Fairfield Center School

The kitchen and dining room were repainted, and exterior siding on the kitchen was replaced. The swings were repaired, and all pupils' desks were sanded and varnished. The front steps were painted, as was the flag pole. Miscellaneous plumbing repairs were made, and broken glass replaced, and toilet floors repainted. A used refrigerator and a used range were added to kitchen equipment.

Shawmut School

Outside sash and trim were repainted. The back steps and walk were repaired, as well as the swings. Broken glass was replaced. New smoke pipe was provided for the furnace, and the furnace room was fireproofed. Anti-panic hardware was installed at the front exit. The classroom floors were resealed.

Keyes Field

Bleacher planking was replaced where necessary, and the drinking fountains were repaired.

During the seven months that I have been superintendent I have been fortunate to receive the cooperation and assistance of the entire school staff, and many townspeople. It is impossible to mention all, but I must mention Mrs. Fuller,

the school secretary, and Mr .Hanson, Mrs. Begin and Miss King at the Town Office. They have been wonderfully kind and helpful.

I wish also to thank the members of the School Committee for their untiring assistance and counsel, and their devoted interest in improving the education offered to the children of Fairfield.

Respectfully submitted,

RALPH S. SMITH,
Superintendent of Schools

REPORT OF THE PRINCIPAL OF LAWRENCE HIGH SCHOOL

To Superintendent of Schools and the Superintending School Committee:

I hereby submit the report of the Principal of Lawrence High School for year ended January 31, 1960.

FACULTY

Rodney Wyman	Colby College, Univ. of Maine	Principal
David Marshall	Colby College	Asst. Principal, Science
Beulah Henderson	Gorham State Teachers College	U. S. History, Problems of Democracy
Francis Evans	University of Maine	Head, Dept. English
Eleanor Farren	Husson College	Commercial
Lillian Fuller	Beals College	Commercial
Walter Abbott	University of Maine	Science
Richard McGee	University of Maine	Social Studies
Verna Hazen	University of New Hampshire	Mathematics
Hollis Hazen	University of New Hampshire	Agriculture
Peggy Howland	Florence State Col., Florence ,Ala.	English
Richard Genthner	Bates College	Foreign Languages
Margaret Totman	Colby College — Leland Powers	English
Joseph Hammond	University of Maine	Science, Mathematics
Doris Leavitt	University of Maine	Girls Phys. Education
Victor Woodbrey	University of Maine	Boys Phys. Education
William Moores	Franklin Technical Institute	Driver Education
Ann Proctor	University of Maine	Home Economics
Daniel Richards	Gorham State Teachers College	Industrial Arts
Dorothy Burgoyne	University of Maine — Northern Conservatory of Music	Vocal Music
Max Cimbollek	Eastman School of Music	Orchestra
Arthur Roundy	N. E. Conservatory of Music	Band
Marion Powers	Colby College	Librarian
Ruby Wales	Lawrence High School	Secretary

SPECIAL ASSIGNMENTS

Football:

Richard McGee, Head Coach
Walter Abbott, Assistant Coach
Joseph Hammond, Freshman Coach

Basketball:

Victor Woodbrey, Head Coach (boys)
Walter Abbott, J. V. Coach
Joseph Hammond, Freshman Coach
Doris Leavitt, Coach (girls)

Cross Country:

David Marshall

Track:

David Marshall
Richard McGee, Assistant

Director of Athletics:

Victor Woodbrey

Senior Play	Francis Evans
One-Act Play	Peggy Howland
Public Speaking	Margaret Totman, Richard Genthner
Tri-Hi-Y Advisor	Beulah Henderson
Yearbook Advisors	Eleanor Farren, Lillian Fuller
National Honor Society	Francis Evans
Future Homemakers of America	Ann Proctor
Future Farmers of America	Hollis Hazen
Varsity Club Advisor	Richard McGee
Senior Class Advisor	David Marshall
Junior Class Advisor	Ann Proctor
Sophomore Class Advisor	Peggy Howland
Freshman Class Advisor	Walter Abbott
Faculty Treasurers	Ruby Wales, Rodney Wyman
Key Club Advisors	Rodney Wyman, David Marshall
Lawrence Assembly Advisor	Rodney Wyman
Debating	Peggy Howland

LAWRENCE HIGH SCHOOL FIRST HALF OF SCHOOL YEAR 1959-60

LAWRENCE HIGH SCHOOL TOTAL ENROLLMENT

Grade	College Classical		College Scientific		General		Commercial		Home Econ.	Agri.	Ind. Arts	Total		
	B	G	B	G	B	G	B	G	G	B	B	B	G	
12	3	2	3	3	22	29		10	1	3	4	35	45	80
11		5	6	11	20	9	2	25	7	7	5	40	57	97
10	6	8	26	7	13	16			10	9	14	68	41	109
9	6	16	25	11	21	26				11		63	53	116
Total	15	31	60	32	76	80	2	35	18	30	23	206	196	402

Grade 9 students who take Home Economics and Industrial Arts are listed in General Course.

Students in Industrial Arts	Grade 9	13
Students in Home Economics	Grade 9	25
Senior Special Home Economics	Grade 12	25

The graduates of the class of 1959 are distributed as fol lows: University of Maine 5; Colby College 1; St. Joseph College 1; Boston College 1; University of Southern California 1; Farmington State Teachers College 3; Washington State Teachers College 1; Thomas Business College 2; Husson Business College 1; Bentley School of Accounting 1; Hospital lab technician 1; Beautician school 1; Armed services 14; married 5; locally employed 30; employed out of state 1; and 5 are at home and employed part time locally.

The reports of the grades of students who are attending institutions of higher learning indicate that students of Lawrence High School are doing very well in post high school work.

There is a need and a program in progress to offer more Mathematics, Science, English, and Foreign Languages for students who can benefit from an accelerated college preparation program.

Chemistry was divided into two divisions this school year and seems to be satisfying the group that is preparing for college and also the group that is preparing for nursing, teachers colleges, and technical schools. The smaller divisions enable more lab work to be done in the present laboratory.

The enrollment of students taking the college course, 138, which will prepare them for post secondary school courses in college, nursing and technical schools, is most gratifying; 36 are taking Industrial Arts; 68 in Home Economics and 30 in Agriculture. Schedules are maintained for those who take the Agriculture course so that they may get the necessary Science and Mathematics to enable them to enter the University of Maine School of Agriculture.

The faculty is striving to get more and better quality work from all students. More home study is required and expected for all students, especially those that expect to go to post secondary schools, and from the vocational course students who plan to take their place in local employment. Many good commendations have been received by students who go out from our Commercial Course into offices of industry and business.

The various clubs in the school have been active in projects in the school and community and offer many students a chance to grow in assuming responsibility and leadership in carrying to completion their planned projects.

The faculty is very cooperative and the new members are working into the system, have a real interest in the welfare of the school, and are developing in competance in their work.

The continuance of the Developmental Reading program in Grade 9, under the direction of Miss Margaret Totman, is a help in assisting students to increase their reading rate and comprehension.

The students are using the school library at Lawrence more and more. The daily papers and weekly magazines give them a chance to keep up on world affairs. Books have been given to the library from time to time, and last fall we received the book "What We Must Know About Communism" by Overstreet. This was a gift from the American Legion Auxiliary. One hundred books were borrowed from the State Library in Augusta in the fall which were enjoyed and we now have one hundred more. The State's book collection contains a very good assortment.

A look to the future and the new school:

The faculty and administration would like to work toward the following program: —

(a) A stronger and better program to take care of the exceptional students who can benefit from an accelerated program.

(b) A good course of study in vocational areas in Home Economics; a four area shop in woodworking, electricity, metal work, and transportation which includes automobile mechanics and allied fields; Agriculture to meet the needs of the community area; and a Commercial course program to better prepare the students to take their places in business and industry.

(c) The development of a guidance program so that, by means of testing and counselling, the school can help

the students to select the proper subjects to meet their needs in preparing to get into the right vocational field, and to adjust themselves in this accelerated society.

(d) The building of a broad program to take care of the needs of all students, so that they can take their places in the community and be able to promote the development and progress of the place in which the majority will settle to become useful members of society of which they are a part.

As principal, I would like to thank the people of the town who have contributed to the welfare of their school, and especially the members of the P.T.A., Band Parents Association, and other special groups who have helped in the carrying out of special projects. I wish to express my appreciation to the Superintendent, Board of Education, faculty, students, and townspeople for the cooperation and help they have given the school during the current school year.

Respectfully submitted,

RODNEY WYMAN, *Principal*

Report of Town of Fairfield School District

To the Citizens of the Town of Fairfield:

Following the award of the contract for general construction to the concern of Winson Construction Company, Incorporated, of Winslow, Maine, a beginning was made on the construction of the school in April of 1959. Work progressed smoothly and footings were placed for the walls in accordance with the architect's drawings of the proposed school.

After one area of footings had been poured it was determined that there was an unusual subsoil condition characterized by a layer of silt under a reasonably hard bed of clay, which was located in the area upon which the proposed school was to be built. Because of this area of softening it was necessary to make a series of test borings about the periphery of the proposed building and also to make borings within the area of its enclosure. As a result of this, it was determined that there was a bed of silt variously represented as being from ten feet to twenty feet in depth in this area. At one corner of the proposed building, ledge was encountered.

From this determination it was deemed necessary to put footings down to hard bottom. This was done about the periphery of the building largely by the excavation of a wide trench with a back hoe to the required depth and filling with a mixture of soil cement. This provided good

bearing down to solid bottom. Within the building excavation was made by means of a well drilling rig; and fourteen inch holes were bored down to ledge. The holes were then filled with reinforcing rods and concrete. Upon this foundation the building was then constructed in accordance with the plans previously drawn, with the exception that where walls occurred over the concrete columns, grade beams of reinforced concrete were installed. The additional and unexpected cost of this phase of the school building project was about thirty-eight thousand dollars.

From this point on, construction progressed according to schedule and there were no other serious problems encountered until it was noticed that a rather large accumulation of water from the underdrains had collected in the sump in the basement of the boiler room, flooding the boiler room. An attempt was made to keep this room free of water by means of pumps, discharging the water into the low land near the building. Because of the large quantities of water and the necessity of keeping the boiler room clear at all times, it was at first thought that a pair of pumps would be the permanent solution to the problem. However, the quantity of water, and the fact that the pumps were rapidly clogged by mineral salts in the water, made it impractical to handle this problem by pumping. A gravity drain was then installed in the boiler room and the water was led across the field into the low land west of the school so that the drainage from the boiler room is now carried through an eight inch pipe and discharged into this low area. This drain system has been both adequate and satisfactory so far in the control of the water problem in the boiler room.

The building was completely closed in, roofed and heated before any seriously cold weather was encountered, and no damage was encountered from the frost because the temporary heating units kept the building warm until the main boiler was put into operation. This was done immediately after the Christmas holidays and good heat has been obtained since that time.

One structural problem has been encountered in the course of the building and that was the result of an engineering error. The east wall of the north wing and the north wall

of the east wing are very high concrete walls which are supported on one side by back fill, while the other side contains class rooms. Normal engineering technique in this sort of a situation assumes that a building is symetrically located in the ground and the pressure of back fill on the wall on one side of the building neutralizes the pressure of back fill on the other side by means of bar joists passing overhead to support the first floor. In this particular building, however, the back fill is present on one side of the building only. On the other side there are windows and walls clear to the ground so that there is no neutralizing force in this area. As a result it was necessary to redesign the partition walls supporting this long concrete wall; and in order to do this, eight inch block walls instead of six inch block walls were laid up as partitions, filled and reinforced as a buttress below the plane of shear. On both these walls an additional truss was carried from the top of these partitions across the corridor to the wall in order to adequately support it. In addition, rod and angle iron has been welded to the bottom chord of the bar joists in order to lend additional support to the top of the wall.

The Trustees of the School District have been assured that the wall is now a properly designed and satisfactory structure in spite of its initial imperfection. The expense of these alterations and designs was at no expense to the Town of Fairfield.

The building of the school was let out to the Winson Construction Company, Incorporated, at a contract price of $498,067.00. As a result of changes which have been necessary during the course of construction, the building is now being built at a cost of $536,692.00. Some thirty-eight thousand dollars, which have gone into the foundation, was an unexpected expense and due entirely to a peculiarity in the subsoil condition of the area chosen. Including all of these additional costs, the building of the school thus far has cost 7.5 per cent over and above the bid cost of the building. It is felt by the Trustees of the District that this is not an excessive added expense in view of the uncertainties concurrent with any sort of construction.

In addition to the equipment at present in use in the

school system, which will be transferred to the new High School, it will be necessary to buy some new equipment. It seems most desirable to purchase this at once, thereby insuring maximum utility of the new school and defraying the expense by short term financing.

It is the desire of the Trustees of the School District to point out to the Citizens of the Town of Fairfield the exemplary relationship which it has enjoyed with the Builder of their new school. He has been completely cooperative with the members of the School District in all ways and has been quick to point out possible problems in the building situation. He first discovered and reported the subsoil problem which was encountered early in the course of construction and delayed the building until he was assured there was an adequate solution to it. He also discovered the faulty design of the walls and insisted that a proper solution be arrived at before the puncheons were removed from the walls; and in this way very likely prevented serious damage to the structure. In all ways his work has been most desirable and helpful and the Trustees of the Town of Fairfield owe him a note of thanks for the excellent technique which he has utilized in building the school, and for the care and attention to detail which he has exercised in the course of construction.

Appreciation for the work of our architect, William O. Armitage, is expressed as it is realized that without his help in the formative stages of this project, our new school might well have never materialized.

The Trustees of the Town of Fairfield School District are also deeply indebted for the services of a group of three of Fairfield's ladies who have kindly donated their time and artistic experience to the decoration of the school building. The committee consists of Mrs. Howard Carroll, Mrs. John Lawry, and Mrs. Ralph Field. They have given freely and generously of their time and the results of their effort will be a source of pleasure to all who view and use the school. It is with the greatest of appreciation that the members of the District thank these ladies for their help in the decoration of the school building.

At the 1959 Town Election, Mr. Marcel Bolduc was elected to replace the retiring Secretary and Treasurer, Mr. John Basel. The cooperation and help of the Town Council, The Budget Committee, The School Board, and many civic minded individuals has been, as always, most effective in furthering the progress of the entire school project.

Respectfully submitted,

LORING W. PRATT, M.D., *Pres.*
MARCEL BOLDUC, *Sec. - Treas.*

Report of Town Planning Committee

The activities of the Planning Board for the year 1959 have been largly confined to periodic meetings with the planning firm of Wright & Pierce of Topsham. The firm of Wright & Pierce was chosen by the committee to implement and complete the phase one program as outlined in broad terms by the contract drawn up by the appropriate state agency and signed by the properly authorized official.

The phase one program consisted of a mapping project by aerial photographs of both the urban and rural areas of the town. The urban area was scaled at one inch to 200 feet and the rural area was scaled one inch to 1,000 feet, which provides an excellent topographical picture of the town of Fairfield. These maps are a prime necessity for any future planning of the town and will be of great value.

Other parts of the program of phase one included historical data, existing sewer lines, existing water lines, availability of public utilities, land use, traffic control, consulting advice on sanitary land fill, trends in population, growth, expenditures, assessments and recommendations for parking both on and off street.

The Planning Board recognizes the need for continuing the program established and have recommended to the council and to the town's people articles for appropriations towards this end.

The first article concerned is with an appropriation for $1,500 to be matched by state and federal funds to continue this work in either of two directions. First by the execu-

tion of phase two or by devoting this money and time to the development of tax assessing maps upon which a start has already been made.

The second article requests the town to authorize the council to borrow a sum of money for a sewer survey from the proper state and federal government agency under the conditions as they now exist.

Phase two of our present program provides the following projects, namely:

A. Land Use Controls Study
 (1) Completion of Future Use Study
 (2) Future Traffic Circulation recommendations
 (3) Preliminary Zoning Map
 (4) Preliminary Zoning Ordinance
 (5) Development plan — commercial and industrial areas

B. Public Facilities Study
 (1) Recreational Needs
 (2) Services expansion (waste collection, Etc.)
 (3) Plant expansion — offices, garages, schools

C. Capitol Improvement Program
 (1) Review Past and Present Practices
 (2) Future Needs — 10 year program
 (3) Five-year budget based on C-2

D. Publication of Master Plan Report

Further investigation is necessary before a final decision is reached and will be dependent somewhat upon the availability of matching funds. No definite amounts of which have been allocated at this time by the state or federal governments.

One other project has been initiated this year concerned with the mapping and proper identification of lot ownership in Maplewood Cemetery under the direction of Elwood Osborne.

The Planning Committee wishes to express its appreciation to Mr. Osborne for his excellent work on this project.

Respectfully submitted,

R. O. Brown, *Chairman*
LeRoy Goodine
Ray Gower
Milton Turner
Wilfred Binette
Philip Libby
Gordon Gould

Report of Budget Committee

The Budget Committee in it's expanded series of meetings this year explored in greater detail and at greater length than in almost any previous year, methods and means of reducing an almost obligatory increase of some fourteen mills based on the valuation of last year.

The Committee was also concerned in providing the necessary improvements for the schools and general town administration which are definitely needed.

We were also cognizant of the fact that an unrealistic tax structure would tend to deprive the town of new tax assessments which would enable us to maintain a better ratio between income and expenses than has existed for the last two years. This fact is aptly reflected by the increase in tax rate compared to an increase in the total assessment. The total appropriation raised by taxes has increased from $232,074 in 1950 to $360,796 in 1959 and $422,000 in 1960. The assessed valuation of all property for 1950 was $3,374,-000 and in 1959 had increased to $4,068.000 or a 55% increase in appropriations compared to a 20% increase in valuation. Meanwhile the population has increased for this period only by 464 individuals, based on estimated census for 1960 or less than 10%.

The tax and assessment rates for Fairfield rank fourth most expensive in our relationship to the towns adjacent to us. This year's anticipated tax increase will, in all probability, change our status and alter Fairfield's relatively favorable position in the attraction of new industry or new buildings.

The Budget Committee must point out to the citizens of Fairfield that a mandatory increase in expenditures for next year is built into its appropriations which are to be deliberated upon this March 7th, 1960.

The built-in increase to which reference is made will be the difference between the fiscal year of the town and the fiscal year of the school department. Salaries and wages are contracted on a twelve month basis of which five months are reflected in the 1960 budget and seven months to be reflected in the 1961 budget.

The Budget Committee did not recommend an item reflecting an expenditure for school sponsored activities. As the cost per pupil of education increases it becomes necessary to scrutinize each and every benefit offered by the school system and delete or curtail those activities or subjects which are not aimed directly towards basic education despite our reluctance to do so. Other towns, for various reasons, mainly financial, have curtailed expenditures of this type in order to do those things which they feel can be afforded.

The ultimate decision in view of our spiraling tax rate this can only become what we can afford to pay, not what we desire. This applies not only for our schools but for our roads, fire protection, police protection, public health or public welfare.

Remember — only at Town Meeting can a course of action be decided. Plan to attend.

TOWN WARRANT

County of Somerset ss., State of Maine

To Frederick H. Gould, Constable of the Town of Fairfield, in the County of Somerset:

You are hereby required in the name of the State of Maine to warn the inhabitants of the Town of Fairfield, aforesaid, qualified to vote in town affairs to assemble at the High School in Town on the seventh day of March, A.D. nineteen hundred and sixty at ten o'clock (E.S.T.) in the forenoon to act upon the following articles to wit:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To elect by secret ballot the following officers as provided by Charter adopted at a special meeting Oct. 15, 1945: and as provided by special Town Meeting adopting a School District for Fairfield, held May 27, 28, 1957: Two councillors for a term of three years: one member of the superintending school committee for a term of three years; Town Clerk for a term of one year; one member of the Fairfield Schol District for a term of five years.

Article 3. Shall the Act, changing date of Municipal

year in Town of Fairfield, passed by the 99th Legislature, be accepted.

Note:
This would change the present municipal year from February 1st to January 31st of each year,
to
January 1st to December 31st of each year.

Article 4. To see what sum the Town will vote to raise and appropriate for the salaries of the Town Officers including Town Manager, Councillors, Assessors, Health Officer, Town Clerk, Office Clerks, Treasurer and Assistant Treasurer.

Recommended $14,046.00

Article 5. To see what sum the Town will vote to raise and appropriate for incidentals.

Recommended $3,000.00

Article 6. To see what sum the Town will vote to raise and appropriate for the maintenance of the Opera House.

Recommended $2,500.00

Article 7. To see what sum the Town will vote to raise and appropriate for Firemen's pay, Firemen's supplies, hydrant rental, fire alarm system, fire pond construction, etc.

Recommended $19,281.00

Article 8. To see what sum the Town will vote to raise and appropriate for the Police Department.

Recommended $15,200.00

From Police Fee Credits	$ 700.00
From Parking Meters income	3,000.00
From Taxes	11,500.00
